

Newsletter #5 | 3.25.2014

Congress has finally passed a 5 year farm bill. Like many of the past farm bills, there are many complicated parts to this bill. FSA has not announced a signup date as of yet, primarily because they are still working on some of the details.

Austin Company personnel have been busy sorting out as many details of this bill as possible. There are several choices that must be made at signup time. These choices when made will stay with your farm for the duration of the 5 year farm bill and could affect any future payments greatly.

If you have questions with respect to the new farm bill and how it could affect your farm, please feel free to contact us to discuss those concerns. Also, remember what might be the best for one farm might not necessarily be best for your farm.
